

## Bell Work

Below is a problem which is *NOT* correct. Switch only two of the symbols to make an addition problem that works.

$$\begin{array}{r} \boxed{2} \boxed{5} \\ \boxed{4} \boxed{1} \\ + \boxed{3} \boxed{6} \\ \hline \boxed{8} \boxed{4} \end{array} \quad \begin{array}{r} \boxed{2} \boxed{5} \\ \boxed{4} \boxed{3} \\ + \boxed{1} \boxed{6} \\ \hline \boxed{8} \boxed{4} \end{array}$$

If there is extra time, create your own puzzle. Then exchange with a neighbor.

We'll pass in any disclosure statements in a few minutes.  
Remember, they're due on TODAY!!!
